

Be A Clown!

Ages: Early Childhood to 3rd Grade

Clowns bring joy to children all over the world. Clowns can put a smile on the face of a shy child or make a roomful of children giggle at their antics. The tradition of clowning has been preserved for generations and kids love them. Are your little ones curious about clowns?

This program introduces children to the art of clowning. Our performer will come to your school or home and transform 3 pre-selected children (you select the children) into a clown before your

very eyes! Children will learn about clown make-up types, clown characters, and a little history of the art of clowning around. The “clown kids” will even perform a quick spinning plate routine!

This show is a HIT with the little ones! Do you have questions about our “Be a Clown” show? Feel free to call us at 214-886-4243. We look forward to hearing from you!
