

DINOSAUR PARTY FACT SHEET

Length of Dino Visit:

For birthday parties, we recommend just 1 hour. After that, most children are ready to eat their cake. In the middle of that hour, the dinosaur will need a water break for about 10 minutes. Our dinosaurs will perform longer if desired for an additional fee.

For other events, please contact Sharon Hodges at 214-886-4243 to discuss details.

Our dinosaurs are quite popular and must start and end at the scheduled time as agreed upon at the time of booking. Other parties/events may be scheduled afterwards so we must be respectful to them.

We encourage you to remind your guests to arrive on time to fully participate in the entertainment. Some clients will schedule their dinosaur experience 30 minutes after their party starts to ensure that all of their guests will be able to enjoy them.

Inclement Weather:

Please have a plan B. Outside parties are always fun but there can be a chance of rain or even snow. If you are planning an outdoor party/event, please have a backup plan in the event of unexpected weather issues. The dinosaur costumes are expensive and cannot get wet. Pavilions, large canopies or moving the party/event indoors are great options; but remember, the dinosaurs are large (7 feet tall and 13 feet long) so it may be wise not to plan for them to enter your home.

Parking:

We request that you reserve a parking spot for our vehicle and trailer in the driveway, on the street or near the party/event. The dinosaur will need to have easy access to your party/event. If the venue requires the parking to be located in a parking garage, paid parking lot or on a metered street, we ask that you are prepared to reimburse us for the cost of such upon arrival.

How can you help ensure that the entertainment is fun for all?

- Be prepared with a camera. Memories may fade but pictures are forever!
- Help keep your guests from trying to abuse the dinosaur (no riding, pulling on the tail, etc.). We want your guest to touch and feel the dinosaur, but it has feelings too.
- Have water available for the performers. Texas is HOT especially inside a 50 lb costume.
- Have someone designated and available to direct and answer questions upon arrival and throughout the party/event.

Let us know in advance what activities/games you would like the dinosaur to participate in:

- Pictures
- Feeding the dinosaur
- Dancing
- Walk the dinosaur with a leash
- The laying of the egg
- Scare a neighbor, eat your boss
- Kick the ball
- Roar-off” contest
- Stomp on the balloon
- Shoot the dinosaur with a nerf gun (if appropriate)
- Open to many other ideas

Will the dinosaurs scare the children?

- Some children are scared at first. We recommend that little children have a parent nearby to help soothe the initial shock of a dinosaur.
- Dinosaurs also have “roaring” capabilities.
- We will be as gentle as possible to all children (adults – not so much).

How do the dinosaurs operate?

These are dinosaur costumes with animatronic abilities. We have an entertainer inside the costume operating the movement of the Body, Head, Mouth, Blinking Eyes and the roaring sounds. We include a “handler” as well to help with the movement, entertainment and safety of the dinosaur.
