

# Let's Go Green!

Ages: Early Childhood - 3rd Grade

What do your kids know about taking care of our wonderful planet? Do they have recycling bins at home? Do they pick up litter? Do they moan when their mom asks them to turn out a light when they leave the room?

We have the perfect show to introduce young children to the importance of caring for our planet.

Our performer, (either Susan or Tricia) will come to your school or home and talk about going green! During the course of this show, kids will learn about recycling and taking care

of our planet with fun magic and visual aids. This is a fun and educational show!

Do you have questions about the "Let's Go Green" show? We would love to talk with you about it! Just give us a call at 214-886-4243.
