

The Jungle Show

Ages: Early Childhood - 3rd Grade

The Jungle. I remember as a child being fascinated by the animals and exotic notions of the jungle. Jungle animals and tales of jungle adventures would grab my attention every time I encountered them. I think it's true for many children today, as well. All you have to do is say the word "tiger" to a small child and most of them will roar back at you!

Fun Time Entertainment is now booking The Jungle Show for day care centers, elementary schools, and birthdays! Our entertainer will come to your school or home with puppets, songs and even magic! There's

so much in this show to entertain! Elephants, lions, alligators and more!
